

ATC TEMPLATE 12-INCH X 12-INCH

This template shows how to cut a 12-inch x 12-inch piece of paper into 16 standard ATCs with very little scrap.

- To make things really easy, I have a precut 5-inch x 7-inch cardboard template.
- Trace this cardboard as shown. Notice how the cardboard is alternately flipped.
- Cut out the 5-inch x 7-inch pieces.
- Cut each of these pieces in half horizontally and vertically.
